## I Am Canadian

Hey, I'm not a lumberjack or a fur trader.  
I don't live in an igloo, or eat blubber or own a dog sled.  
And I don't know Jimmy, Sally or Suzy from Canada (although I'm certain they're really, really nice).  
I have a prime minister, not a president.  
I speak English and French, not American and I pronounce it "about" not "aboot".  
I can proudly sew my country's flag on my backpack.  
I believe in peacekeeping, not policing, diversity, not assimilation, and that the beaver is a truly proud and noble animal.  
A toque is a hat, a chesterfield is a couch and it is pronounced "zed" not "zee" - "zed".  
Canada's the second largest land mass, the first nation of hockey and the best part of North America. My name is Joe and I am Canadian!

Thank you.

## Scotsman Goes Hunting

A Scotsman was visiting a friend in the North Woods of Canada, both liked to hunt. They were hunting for deer, when all of a sudden, a moose popped up in front of them. It was so unexpected, neither of them had a chance to fire.

The Scotsman was shaken. "Hoot mon, wit in blazes was that?!"

"That was a moose", the Canadian replied.

"What are ye saying, lad? A moose? Good Lord, I'd hate to see yer rats!"

## Canadian Assistance

It was recently announced that Canada is going to help America with the war on terrorism. They have pledged two of their biggest battleships, 600 ground troops and six fighter jets.

After applying the American exchange rate, the support comprised two Mounties, one canoe and a flying squirrel.

The Refurbished PCs and laptops we sell are all A-Grade off-lease business machines, so very good quality units. We also fix and resell some of our clients' old PCs and laptops as well. These systems are not the same grade as the Refurb units, but are less costly and still in good working order. Each unit is thoroughly tested and guaranteed.
